General Assembly

Motion for the WBFSH General Assembly 2026

The Norwegian Warmblood care about the role of the breeders and their visibility in the international sport. Recognition of the breeders is of great importance, and they should always appear on all FEI start and result lists.

When this information is not appearing on the lists in FEI events, it makes it difficult to track the breeders and respect their work.

NWB therefore encourages WBFSH to work on making this principle firmly implemented at FEI events.

On behalf Norwegian Warmblood

Mette Hansson

President
